as I write this e book if he was alive today*

*the fine line drawings and digitallly painted images  
are new creation inspired by the artist from  
unknown sources.*

*my brother who died a young man, was my  
friend and gaurdian as a child,  
who did everything he could for me to make

*04 - my art as songs of joy and pain*

*My art is a Blessing because my Art give me  
something positive to do; it melts my time like  
heat melts butter, before I know it my day is over.*

*I am calling my desire for Art positive because it  
polishes my skills for patience and determination,  
two key elements of Faith,  
the greatest power on Heaven and Earth !*

*My art to me is a source of pain because it makes  
me no money.*

*While I love my art and see it as beautiful,  
the fact that no one invest in it makes me feel  
partially foolish for wasting our time doing things  
that did not earn monetary rewards !*
